SOCIAL EDUCATOR

From the moment that the user of the programme came to Segovia, the social educators pick them up at the train station and take them to their new house, where the social educators explain basic things to them and let the users rest until the following day.

The following day, the Social educator teaches them the memorable places in Segovia and the location of red Cross and introduces the rest of the team.

FUNCTIONS:

- to establish a confident relation.
- to visit the users regularly.
- to accompany in order to follow the administrative steps.
- protection of infancy.

TRABAJADORES SOCIALES

THE SECOND PHASE (social Intervention)

In this phase the user joins after six months of temporary reception. In this phase there are also six months where two extensions are possible. Once this phase is finished, they would have fulfilled between 12 and 18 months in Spain.

The users look for their own flat with contract to their names.

The search of a job is very important.

A follow-up of the families is done at their flats to make sure that everything is correct.

THIRD PHASE (Autonomy)

After the credit spent by the second phase the users would go on to a third phase.

In this phase there would be another 6 months up to expiring 18 months (or 24 if they are more vulnerable), in which, they are more independent, since the majority has obtained an employment and are capable of covering their expenses and needs.

In this phase they have the possibility to access to some punctual help, for example: light, gas, day-care center, school material ...

The follow-up in this stage is not so periodic due to the fact that the autonomy is promoted.

PSYCHOLOGICAL ATTENTION:

During the whole time that the users are in the project, they have psychological attention. They are vulnerable individuals who come with many problems after a long and dangerous trip. The labor of the psychologist is very important and it is one of the services that all the users demand.

JURIDICAL ATTENTION:

The juridical attention is active from the very first moment. The request of international protection is prepared and managed by the attorney in police station, during all the time that it remains in the program it has juridical constant attention both in topics of asylum and in professional topics.

Principal topics to treating:

- Production of reports of juridical support
- Meetings
- Advice
